Below is a **Version-wise list of Java 1 → 21 features**, and for each feature I'm giving a **UNIQUE Java class name** (PascalCase) that you can directly use in your project.

✅ Class names are unique across all versions
✅ Feature names are industry-standard
✅ No duplicates like Feature01Demo

✅ Java 1 → 21 Features List (With Unique Class Names)

✅ Java 1.0 (1996)

Feature	Unique Class Name
Primitive types	Java1_PrimitiveTypes
Reference types	Java1_ReferenceTypes
Operators	Java1_Operators
if-else	Java1_IfElse
switch statement	Java1_SwitchStatement
for loop	Java1_ForLoop
while loop	Java1_WhileLoop
do-while loop	Java1_DoWhileLoop
break/continue	Java1_BreakContinue
Methods	Java1_Methods
Method overloading	Java1_MethodOverloading
Constructors	Java1_Constructors
this keyword	Java1_ThisKeyword
static keyword	Java1_StaticKeyword
final keyword	Java1_FinalKeyword
Access modifiers	Java1_AccessModifiers
Packages/import	Java1_PackagesImport
Classes and objects	Java1_ClassesObjects
Encapsulation	Java1_Encapsulation
Inheritance	Java1_Inheritance
Polymorphism	Java1_Polymorphism
Abstract classes	Java1_AbstractClasses
Interfaces	Java1_Interfaces
Exceptions	Java1_ExceptionHandling
Threads basics	Java1_ThreadBasics
Synchronization	Java1_SynchronizationBasics
Wait/notify	Java1_WaitNotify
Arrays	Java1_Arrays
Strings	Java1_StringBasics
I/O streams	Java1_IOStreams
Networking sockets	Java1_NetworkSockets

✅ Java 1.1 (1997)

Feature	Unique Class Name
Inner classes	Java11_InnerClasses
Reflection API	Java11_ReflectionAPI
Serialization	Java11_Serialization
JDBC	Java11_JDBCIntro
JavaBeans	Java11_JavaBeans
RMI	Java11_RMI

✅ Java 1.2 / Java 2 (1998)

Feature	Unique Class Name
Collections Framework	Java12_CollectionsFramework
List/ArrayList	Java12_ArrayList
Set/HashSet	Java12_HashSet
Map/HashMap	Java12_HashMap
TreeSet	Java12_TreeSet
TreeMap	Java12_TreeMap
Iterator	Java12_Iterator
Comparable	Java12_Comparable
Comparator	Java12_Comparator
Swing UI	Java12_SwingIntro
Security permissions	Java12_SecurityModel

✅ Java 1.3 (2000)

Feature	Unique Class Name
HotSpot JVM improvements	Java13_HotSpotJVM
JNDI improvements	Java13_JNDI
JavaSound	Java13_JavaSound
RMI over IIOP	Java13_RMI_IIOP

✅ Java 1.4 (2002)

Feature	Unique Class Name
assert keyword	Java14_AssertKeyword
Regex	Java14_RegexAPI
Logging (java.util.logging)	Java14_LoggingAPI
NIO	Java14_NIOBasics
XML APIs (JAXP)	Java14_XML_JAXP
Preferences API	Java14_PreferencesAPI

✅ Java 5 (2004)

Feature	Unique Class Name
Generics	Java5_Generics
Enum	Java5_Enums
Annotations	Java5_Annotations
Autoboxing	Java5_AutoboxingUnboxing
Varargs	Java5_Varargs
Enhanced for-loop	Java5_EnhancedForLoop
Static import	Java5_StaticImport
java.util.concurrent	Java5_ConcurrencyFramework
ExecutorService	Java5_ExecutorService
Callable/Future	Java5_CallableFuture
Atomic types	Java5_AtomicTypes

✅ Java 6 (2006)

Feature	Unique Class Name
Scripting API	Java6_ScriptingAPI
Compiler API	Java6_CompilerAPI
JDBC 4	Java6_JDBC4
Web Services APIs	Java6_WebServicesJAXWS

✅ Java 7 (2011)

Feature	Unique Class Name
try-with-resources	Java7_TryWithResources
Multi-catch	Java7_MultiCatch
Diamond operator	Java7_DiamondOperator
Strings in switch	Java7_StringSwitch
Binary literals	Java7_BinaryLiterals
Underscores in numeric	Java7_UnderscoreNumbers
NIO.2	Java7_NIO2
ForkJoin	Java7_ForkJoinFramework

✅ Java 8 (2014)

Feature	Unique Class Name
Lambda expressions	Java8_LambdaExpressions
Functional interfaces	Java8_FunctionalInterfaces
Streams API	Java8_StreamsAPI
Optional	Java8_Optional
Method references	Java8_MethodReferences
Default interface methods	Java8_DefaultMethods
java.time	Java8_DateTimeAPI
CompletableFuture	Java8_CompletableFuture
Base64	Java8_Base64API

✅ Java 9 (2017)

Feature	Unique Class Name
Module system (JPMS)	Java9_ModulesJPMS
module-info.java	Java9_ModuleInfo
JShell	Java9_JShell
Collection factory methods	Java9_CollectionFactories
Stream takeWhile/dropWhile	Java9_StreamTakeDropWhile
Private interface methods	Java9_PrivateInterfaceMethods
ProcessHandle API	Java9_ProcessHandle
StackWalker API	Java9_StackWalker

✅ Java 10 (2018)

Feature	Unique Class Name
Local var inference	Java10_VarTypeInference
AppCDS improvements	Java10_AppCDS

✅ Java 11 (2018) (LTS)

Feature	Unique Class Name
Standard HTTP Client	Java11_HttpClient
String new methods	Java11_StringMethods
Files readString/writeString	Java11_FilesStringIO
Flight Recorder	Java11_FlightRecorder
ZGC experimental	Java11_ZGC

✅ Java 12 (2019)

Feature	Unique Class Name
Switch expressions (preview)	Java12_SwitchExpressions

✅ Java 13 (2019)

Feature	Unique Class Name
Text blocks (preview)	Java13_TextBlocks

✅ Java 14 (2020)

Feature	Unique Class Name
Helpful NPE messages	Java14_HelpfulNPE
instanceof pattern matching (preview)	Java14_InstanceofPatternMatching

---

✅ Java 15 (2020)

Feature	Unique Class Name
Text blocks final	Java15_TextBlocksFinal
Hidden classes	Java15_HiddenClasses
Sealed classes preview	Java15_SealedPreview

✅ Java 16 (2021)

Feature	Unique Class Name
Records final	Java16_Records
instanceof pattern matching final	Java16_InstanceofFinal

✅ Java 17 (2021) (LTS)

Feature	Unique Class Name
Sealed classes final	Java17_SealedClasses
Strong encapsulation	Java17_StrongEncapsulation

✅ Java 18 (2022)

Feature	Unique Class Name
Simple web server	Java18_SimpleWebServer
UTF-8 default	Java18_UTF8Default

✅ Java 19 (2022)

Feature	Unique Class Name
Virtual threads preview	Java19_VirtualThreadsPreview
Record patterns preview	Java19_RecordPatternsPreview

✅ Java 20 (2023)

Feature	Unique Class Name
Scoped values incubator	Java20_ScopedValues

✅ Java 21 (2023) (LTS)

Feature	Unique Class Name
Virtual threads final	Java21_VirtualThreads
Pattern matching switch final	Java21_PatternMatchingSwitch
Record patterns final	Java21_RecordPatterns
Sequenced collections	Java21_SequencedCollections
Foreign Function & Memory API final	Java21_FFM_API
